Clearpay by the numbers¹

144k+ global merchants

20m+ global active consumers

98% payments made on time and do not incur late fees²

Shop now. Pay later.

Clearpay enables merchants to offer a "buy now, pay later" service that does not require customers to enter into a traditional loan or pay upfront fees. The product is completely free for customers who pay on-time.

Unlike traditional credit products, the Clearpay product does not push customers into revolving and extended debt.

A late payment results in the customer being unable to use the service to make additional merchant purchases, so the customer cannot grow his or her debt. This helps encourage responsible spending.

How it works.
